PROJECTS

Student Result Management System   **Mar 2025 – Apr 2025**
➢ Technologies Used: HTML, CSS, JavaScript, PHP, MySQL (phpMyAdmin).
➢ Developed a dynamic web-based application to streamline student result processing and academic record management.
➢ Implemented a secure **admin login** system to manage classes, subjects, student information, and marks.
➢ Enabled students to **view their results** by entering their registration number.
➢ Integrated functionality for students to **download their mark sheets** in a printable format.
➢ Used **PHP** for backend development and **phpMyAdmin (MySQL)** to manage the database.
➢ Ensured secure access control and smooth database interactions for reliable data handling.

College Website   **Sept 2023 – Feb 2024**
➢ Developed a front-end website for students to access and download notes and academic resources, using HTML, CSS and Bootstrap for an intuitive user experience.

Movie Ticket Booking Website   **July 2023 – August 2023**
➢ Created a responsive movie ticket booking website using HTML enabling users to browse movies, select show times, and book tickets.

OTHER ACADEMIC DETAILS

- Got runner up prize in inter-branch volleyball match in college.
- Got runner up prize in inter-branch cricket match in collage.
